

THE EXIT DECK

8 SLIDES DECIDE THE DEAL

What every deck has to do to survive the room. Buyers and investors both.

[01]

The founder story

Investors and buyers decide on the person first. Open with where you came from, not what you built.

[02]

The macro trend

A shift that is true whether you build this or not. It answers why now, before anyone asks.

[03]

Problem and solution

Third, not first. After the story and the trend, the problem reads as inevitable.

[04]

Traction

Users and revenue. Strong numbers go early, thin ones go later. A waitlist is not traction.

[05]

Distribution

Anyone can build now. Show what already works, then what the money unlocks.

[06]

Financials

Nobody believes year five. They are checking whether you know what to do with the money.

[07]

The case study

One customer saying it better than you can. If you don't have one, go get one.

[08]

The demo

Show the product, late. Most of them never log in. The story is what they remember.

Order is Leverage.

Financials come last on purpose. The first 60 pages earn the right to show them.

The full 47-slide template that sold AutoDS is linked in the first comment. No need to comment for it.
